# Central Remote DEPOSIT

## *What is it?*

Central Remote Deposit gives you the opportunity to replace paper-based check processes with quicker, safer, image-based handling and clearing services.

## *Is it smart for your business?*

Do you ...

- Want faster funds availability?
- Want to make deposits at any time during the day, even after bank hours?
- Save time in preparing deposits and improve employee efficiencies?
- Cut courier costs to the bank?
- Prefer more security?
- Want to easily search previous deposits?

If you answered **YES** to even just one of these questions, then you could benefit from Central Remote Deposit.

Desktop Scanner

## *How does Central Remote Deposit work?*

- **Scanner**—A small scanner sits on your desktop and scans both sides of your customers checks.
- **Prepare**—Review the scanned checks and prepare your deposit.
- **Send**—Electronically send the deposit to your Central Bank checking account.

## *Is it Secure & Safe?*

- Authorized users only.
- Password protected.
- Internet firewalls
- Stringent encryption technology.
- Faster detection of NSF checks.
- Scanned checks are secure.

## *What Do You Need?*

- PC with Windows 2000 or Windows XP
- High speed Internet connection
- Desktop scanner and software provided **FREE** by Central Bank
- Central Bank Business Checking account
